

## **Sports Clubs Survey: Impact of Sports Premium Funding**

### **Objective:**

To investigate the impact of our Sports Premium funding.

### **Context:**

As the impact of our Sports Premium funding is difficult to measure directly in terms of academic performance, we sort to assess its impact using other measures relating to personal development, health, social development and communication skills.

We sought to gather our evidence from our pupils directly through the use of a survey.

### **Format:**

Children from Year 2 - 6 including ESC children completed our survey electronically during Spring 2.

Those who might find it tricky to access the survey were supported to do so effectively.

The survey had three sections.

### **Results - Part 1:**

Children were asked to identify if they agreed with a series of statements. The % relates to the number of children that agreed with the statement:

Sports clubs help me to feel good about myself	90%
Sports clubs help to improve my confidence	92%
Sports clubs help to improve my fitness	95%
Sports clubs help me learn to work as a team	94%
Sports clubs help me with my speaking and listening skills	78%
Sports clubs help me to make new friends	78%

### **Results - Part 2:**

Pupils were also asked if they took part in a sports club outside of school and 60% of children reported that they do. These pupils take part in a range of activities including: dance; football; tennis; trampolining; boxing and martial arts.

### **Results - Part 3:**

In order to add detail to their responses, pupils were asked to add any comments they felt they wanted to contribute:

- It makes me feel energetic.
- I love clubs.
- Sports helps me to know people more.
- They help me build my future.
- Sports can help your physical life.
- I like them because they make me learn how to co-operate with other people and they are fun.
- It gives me a lot of confidence.
- Sports help us with fitness and it is very fun.
- They can sometimes help you with your confidence in school or out of school.
- When I'm sad it helps me to let out all my 'steam' and help me be more calm.
- They help my worries to go away.
- Sport clubs are amazing and they keep you fit and healthy.
- You make new friends at sport clubs.

### **Actions:**

As a result of this survey we now plan to monitor the pupil's involvement in sports and try to offer opportunities to all pupils in the school to take part in a range of sports.
